

My FM station I listen to is 91.9. I enjoy this station as it has no commercials and is clean, uplifting music. This is the only station I listen to 24/7. There are many people I know that listen to this station. Families need a radio station to listen to that is clean for their children. The people that run these stations really care for the communities they serve. Many lives are changed in a good way because of their dedication to what they do and their uplifting personalities. Please do not force the K-Love stations off the air. There are millions of people that would be upset if they could no longer listen to these stations.
